

Syed Hameem H

Computer Engineering student with a strong interest in Data Analytics, skilled in data analysis, visualization, and extracting meaningful insights from data. Strong team player with a structured problem-solving approach, eager to apply analytical skills in real-world projects and contribute effectively to organizational growth. Passionate about working with data-driven solutions to support better decision-making and business outcomes.

Educational Background

Bachelor of Engineering (Computer Science)

St. Xavier's Catholic College of Engineering (Autonomous), Nagercoil

Affiliated to Anna University, Chennai

Oct 2022 - May 2026

- Electives Focused on Data Analytics and Web Technologies.
- CGPA: 6

Higher Secondary

Government Higher Secondary School, Thucklay

May 2022

- Percentage: 60.12%

Secondary Education

Islamic Modern Matric Higher Secondary School, Thiruvithamcode

May 2020

- Percentage: 52

Internship

Entuite Technologies Pvt Ltd., Thiruvananthapuram, Kerala

Software Developer Intern

July 2024

- Translated complex design mockups into responsive, user-friendly web interfaces using HTML5 and CSS3, ensuring seamless cross-browser compatibility and optimized rendering speeds.
- Programmed interactive elements, client-side data validation, and asynchronous API integrations using Modern JavaScript (ES6+) to deliver a dynamic and highly engaging user experience.

Projects

Amazon Prime Video Dashboard and Analysis

- Cleaned and preprocessed Amazon Prime Video content datasets using Excel, handling missing and redundant data.
- Created interactive dashboard in Power BI to visualize viewer engagement, content genres, ratings, and release trends.
- Generated actionable insights for decision-making, demonstrating data-driven analysis skills in media and streaming analytics.

Enterprise-level Credit Risk Prediction Framework using LightGBM and XAI

- Developed an enterprise-level credit risk prediction framework using LightGBM to analyze borrower data, predict safe loan amounts, and improve loan approval decision-making.
- Implemented Explainable AI (XAI) techniques to interpret model predictions, identify key risk factors, and enhance transparency in credit assessment.
